

## **Non-GMO (Genetically Modified Organism) Declaration**

All vegetable seed varieties marketed by Bayer New Zealand Limited in New Zealand have been created using conventional breeding methods without the use of genetic modification techniques leading to GMOs, as defined by the Hazardous Substances and New Organisms Act 1996.

This declaration applies to all shipments of vegetable seed varieties marketed, and seeds produced, by Bayer New Zealand Limited in the course of 2026 unless advised otherwise.

I declare that the information provided above is true and correct to the best of my knowledge.
