

## **Non-GMO (Genetically Modified Organism) Declaration**

All vegetable seed varieties marketed by Bayer CropScience Pty Ltd and Monsanto Australia Pty Ltd in Australia have been created using conventional breeding methods without the use of genetic modification techniques leading to GMOs, as defined by the Australian Gene Technology Act 2000.

This declaration applies to all shipments of vegetable seed varieties marketed, and seeds produced, by Bayer CropScience Pty Ltd and Monsanto Australia Pty Ltd in the course of 2026 unless advised otherwise.

I declare that the information provided above is true and correct to the best of my knowledge.

A handwritten signature in black ink, appearing to read "Darren Wood".

**Darren Wood**
