

Supplier Food Safety Commitment

We are committed to supporting food safety and quality standards in accordance with Freshcare requirements.

In doing so, we undertake to:

- Ensure all seedling trays, containers, and planting materials are maintained in a clean and contamination-free condition.
- Supply vigorous and disease-free planting material.
- Provide the correct variety and growth stage as specified by the customer.
- Disclose any known allergen exposure or contamination risks associated with supplied plant material.

Potential allergens include, but are not limited to, cereals containing gluten, crustaceans, eggs, fish, peanuts, soybeans, milk products, tree nuts, sesame seeds, and sulphites above regulated thresholds.

Personnel entering customer production, storage, or packing facilities will follow all relevant food safety, hygiene, and site access requirements.

A handwritten signature in black ink, appearing to read "Darren Wood".
