■ Sowing ■ Harvesting

* Subject to approval in the UK

Disko* (SVVC6091)
Early maturing smooth variety

- // Suitable for spring and late autumn production
- // Oval shaped leaf with good thickness
- // Medium dark green colour
- // Good bolting tolerance for maturity giving flexible harvest window
- // Erect plant habit giving efficient harvest

Sumbawa* (SVVB2741)
Dark green early savoy

- // Upright, strong and thick leaf with very dark colour
- // High quality presentation in bag for fresh market
- // Leaf type similar to SV2146VB but benefits from better Downy Mildew resistance
- // High yield potential

Pukapuka* (SVVB2740)
Dark green early savoy

- // Thick leaves and stems giving high yield potential
- // Oval-round leaves ensure attractive presentation in bags
- // Uniform canopy at harvest
- // Ideal leaf size for babyleaf

Barbuda* (SVVB2772)

Thick leafed savoy variety with high yield potential

- // Suitable for early and late production
- // Round savoy leaf
- // Strong leaf and stem
- // Good mildew and pythium tolerance

Kona* (SVVB2636)

High yield potential of excellent quality leaf

- // Mid late semi savoy well suited for late spring/early summer + autumn production
- // Slightly later than SV2146VB with better bolting tolerance
- // Leaves are a dark green colour
- // Leaf shape is oval and has good thickness and pliability
- // Plant habit is erect with good petiole length giving a high cut of quality leaves at harvest

Taliabu* (SVVB2725)

New dark green savoy suitable for summer production

- // Suitable for babyleaf production through the summer months
- // Bolting tolerance is like Magnetic and Taliabu
- // Leaves are oval shaped with good thickness and pliability
- // Efficient harvesting and attractive presentation in bags

SV2141VB

Versatile production from spring to autumn

- // Mid late semi savoy for drilling from late spring to early autumn
- // Proven summer variety that is slow to bolt
- // Dark green round leaf
- // Nice upright plant habit with a strong uniform petiole length

Jolo* (SVVC5883)

Late maturing mid summer variety with good bolting tolerance

- // Dark green colour
- // Upright plant habit
- // Oval round leaf with good leaf thickness
- // Good bolting tolerance for summer production

Magnetic

Reliable production of high quality leaves

- // Versatile variety suitable for sowing from late spring through to the autumn
- // Nice savoy leaf type with good thick and pliable leaf
- // Excellent dark green leaf colour similar to SV2141VB
- // Erect plant habit for higher quality cut and less waste
- // Good bolting resistance

* Subject to approval in the UK
