

Visitor Protocol

Dear Visitor,

We appreciate and value your time and attention visiting our Demo House. To provide you with a safe environment and pleasant experience, please take note of our visitor protocol.

Covid-19

- If you feel unwell before your scheduled visit, please reschedule your visit to a later date.
- You are not required to wear a face mask, unless advised otherwise, however maintain a 1.5-meter (6 feet) distance when and wherever possible, unless agreed otherwise by all participating parties.
- You may take off your face mask (if wearing) while seated at the conference table, or elsewhere, if the appropriate distance of 1.5-meter (6 feet) is maintained, unless agreed otherwise by all participating parties.

Phytosanitary

You may only enter the Demo House if you have not been in, and/or have visited another tomato production/processing/packing facility on the same day. Before entering the Demo House, you must:

Before entering the greenhouse

- Leave your phone in your car.
- Disinfect your hands with the provided sanitizing product.
- Put on all provided personal protective equipment (suit, shoe covers, hair net).
- Disinfect your hands with the provided sanitizing product.
- Put on the gloves provided before leaving the changing area.
- Sign the visitor logbook and register in (and out before leaving) with name, date, contact number, name of home farm and reason for visit.
- Disinfect your gloved hands with the sanitizing product provided before entering the greenhouse.

While in the greenhouse

- Only enter the marked paths.
- Always walk the paths from low to high order.
- Experience the plants and fruits visually, please do not touch.
- Disinfect your gloved hands with the sanitizing product provided after each path.
- Follow staff, greenhouse owner, or their assigned designate's instructions always.

Please follow the above instructions to ensure everyone's safety. If you have any questions, please ask, and discuss them before your visit and before entering the greenhouse.
